

Welcome to august360!

I'm very proud and delighted to present this brand new project that centralizes the 360° development and the mental wellbeing of our athletes and young talents.

Thereby we invite coaches, sports parents, clubs and federations to increase their awareness of the mental factor during the training and coaching of athletes to perform at a high level.

To do so, august360 introduces the Sport Talent Passport, a strongly scientifically based and reliable online tool that offers us the opportunity to discover our emotional and rational talents, the two 'invisible' essential and driving forces to excel.

So, are you as a studious coach, club or federation triggered by the august360 vision and are you convinced that this could mean added value in training and coaching (young) athletes, please feel free to take a look at www.august360.com or feel free to contact me for more concrete information or an online meet and greet.

See you soon and take care!
